East Shore District Health Department: North Branford has 5 confirmed cases.

COVID-19 Update April 3, 2020: As of April 3, 2020, a total of 4914 laboratory-confirmed cases of COVID-19 have been reported among Connecticut residents (Figure 1). Nine hundred and nine patients are currently hospitalized. One hundred and thirty-one residents have died. The increase in cases reported today is related to catch up of data entry and implementation of a new method for reporting cases to the Department of Public Health. This increase does not reflect a change in the trajectory of the outbreak.

All data in this report are preliminary; data for previous dates will be updated as new reports are received and data errors are corrected. Hospitalization data were collected by the Connecticut Hospital Association. Deaths* reported to the either the OCME or DPH are included in the daily COVID-19 update.
